

Brainstorming & Idea Prioritization Template

Date	2 july 2026
Team ID	xxxxxxx
Project Name	HDI Prediction & Assessment Model
Maximum Marks	3 Marks

Step 1: Brainstorm and Idea Listing

Each team member lists out as many ideas as possible without judging them at this stage.

S.No	Team Member	Idea / Suggestion	Category	Group No.
1	Neelima Duddu	Develop a core machine learning model to accurately predict HDI tiers (Very High to Low) based on life expectancy, education, and GNI per capita.	Core Development	1
2	Harshitha Lingineni (Team Lead)	Create an interactive, user-friendly dashboard for policymakers to input data and visualize development gaps in emerging economies.	User Interface / Application	2
3	Navya Nannepamula	Implement an automated alert/analytics feature that highlights specific areas (healthcare, education, or income) requiring immediate intervention for Low HDI countries.	Analytics / Features	3
4	Manthana Sahithi	Integrate historical HDI data to track a country's progress over time and forecast future development	Data Analysis	4

Brainstorming & Idea Prioritization Template

		trends.		
5	Nikhil Sai Yadama	Build a secure API allowing international organizations and researchers to integrate the HDI prediction model into their existing platforms.	Integration	

Step 2: Idea Prioritization

Rate each grouped idea on feasibility and importance, then select the final idea(s) to move forward with.

Group No.	Final Idea	Feasibility (High/Medium/Low)	Importance (High/Medium/Low)	Priority	Selected (Yes/No)
1	Core ML Model for HDI Prediction	High	High	High	Yes
2	Interactive Policymaker Dashboard	Medium	High	yes	Yes
3	Intervention Analytics Feature	High	Medium	Medium	No
